PROFESSIONAL SUMMARY

Front-End Developer with over 4 years of experience in web development, specializing in React.js, Next.js. Strong proficiency in building scalable, maintainable web applications, with solid problem-solving skills and logical thinking. Focused on delivering scalable, high-availability frontend systems with long-term reliability and performance.

Tech Stack: React.js, Next.js, JavaScript, TypeScript, Tailwind CSS, REST APIs

EDUCATION

2018 - 2022 | University of Transport and Communications

Major: Information Technology

WORK EXPERIENCE

Helix Mesh

Frontend Developer | Oct 2024 - Present

- Developed and maintained production-grade web applications using React.js, Next.js, Vue.js, TypeScript, and Tailwind CSS.
- Owned and evolved core frontend architecture and shared UI components, improving scalability, maintainability, and cross-feature consistency.
- Collaborated closely with product managers and designers to translate business requirements into scalable and high-quality frontend solutions.
- Improved performance, UI consistency, and user experience across multiple products, contributing to long-term system reliability.
- Actively reviewed pull requests, debugged complex issues, and proposed technical improvements to ensure code quality and team standards.

FPT Software

Frontend Developer | Dec 2021 - Oct 2024

- Worked on multiple client projects using React.js, Next.js, Vue.js, JavaScript, HTML, CSS, SCSS.
- Implemented UI features based on design specifications and business requirements.
- Collaborated with cross-functional teams (BA, QA, Backend) throughout the development lifecycle.
- Investigated and fixed bugs, improved code quality and maintainability.
- Performed testing and supported QA to ensure stable releases.

Mevivu

Intern Frontend Developer | Aug 2021 - Dec 2021

- Built and maintained web pages using HTML, CSS, SCSS, JavaScript, React.js.
- Assisted senior developers in implementing new features and updating existing UI.
- Gained hands-on experience with real projects and delivery workflow.
- Successfully completed assigned tasks and handed over features to customers.

RELEVANT PROJECTS

MegaNova AI – AI Platform (<https://www.meganova.ai/>)

Team size: 20+

- Developed and maintained a production AI platform website with a strong focus on performance, scalability, and user experience.
- Improved on-page SEO by optimizing metadata, page structure, and performance, contributing to better search visibility and organic traffic growth.
- Leveraged shadcn/ui to design and customize core UI components (forms, modals, tables, layouts), reducing manual component development effort by ~40% while maintaining consistent styling.
- Collaborated closely with product and design teams to deliver features efficiently and ensure design consistency across the platform.
- Technologies: Next.js, React.js, TypeScript, Tailwind CSS, Git, Figma,...

ASCOTT Brand – Booking Platform (<https://www.discoverasr.com/en>)

Team size: 50+

- Developed a branded booking website allowing users to reserve apartments using vouchers and promo codes.
- Built reusable UI components, reducing development time and improving consistency.
- Implemented UI based on design requirements and fixed production bugs.
- Collaborated with team members to analyze requirements and resolve issues.
- Technologies: HTML, CSS, JavaScript, Vue.js, Git, Azure, Jira, Figma,...

JOB KOREA (Albamon) – Job Search Platform (<https://www.albamon.com/>)

Team size: 20+

- Developed features for a large-scale job search platform ranked #2 in South Korea, serving millions of job seekers and employers.
- Improved on-page SEO and performance for large-scale job listing pages, enhancing search visibility and crawlability.
- Proposed and implemented Chart.js-based data visualization solutions, contributing to a successful release phase.
- Designed and implemented reusable UI components and shared patterns, improving development efficiency and maintaining consistent UX at scale.
- Mentored junior developers and supported team members through code reviews and technical guidance.
- Technologies: HTML, CSS, TypeScript, Next.js, Zustand, Chart.js, GSAP, Git, Azure, Jira, Figma,...

SKILLS

- Programming Languages: HTML, CSS, JavaScript, TypeScript,...
- Frameworks and libraries: React.js, Next.js, Vue.js,...
- UI libraries: Material UI, Ant Design, Bootstrap, shadcn/ui, Tailwind...
- State management: Redux, Redux Saga, Redux Toolkit, Zustand,...
- Databases: MySQL, SQL Server, MongoDB,...
- Development Tools: Git, Figma, npm, yarn, Jest, Webpack, GCP, Azure,...
- Agile methodology: Scrum

ACHIEVEMENTS

- React Udacity
- Google Cloud Certified - Associate Cloud Engineer
- Professional Scrum Master I
- TOEIC Certification from ETS
